EXCO CORNER

A note from our APC Academic Head

Ferdinand Mokete CA(SA)

Reflecting on our EPC results for the APC 2023, I find myself navigating through a spectrum of emotions. It's truly fulfilling to witness the impactful contribution made by EPC, not only with an impressive 57% of candidates registered with SAICA successfully passing the assessment but also with those enrolled in our various courses, including our APC Workshop. The gratitude expressed by these successful candidates is deeply touching. Conversely, grappling with the outcomes for those who did not succeed evokes a range of emotions.

In conversations with some of these individuals, questions arise regarding the areas where challenges emerged and the urgent consideration of their next steps. Addressing academic setbacks, gearing up for another intensive year, exploring re-registrations, and undergoing script reviews are multifaceted aspects that merit careful attention. It's crucial that unsuccessful candidates allocate time to navigate through each of these elements, taking the initiative to start anew, picking up where the dust has settled and leveraging support systems for insights and decisions.

On the bright side, it brings me great joy to acknowledge and celebrate the accomplishments of the candidates who triumphed in the APC 2023. Their unwavering dedication and hard work throughout the year, and in preceding years, have yielded success, and we eagerly anticipate their entrance into the profession. We extend our heartfelt wishes for a flourishing career journey and encourage them to remain steadfast in upholding the values of our esteemed profession.
