EXPERT LEARNING WITH A PERSONAL TOUCH

PROGRAMME OVERVIEW

FOUNDATION PHASE: This phase introduces case study assessment in a structured manner, enabling early identification of developmental needs for CIMA, ACCA, IAC, and previous prospective APC candidates, and ensuring tailored support from the outset. The **Comprehensive APC Programme** starts here.

DEVELOPMENT PHASE: The aim is to understand and develop the competencies specified in the competency framework, allowing for demonstration of these skills in addressing a multi-disciplinary case study. Participants will practice applying and displaying the professional competencies within the context of a previous SAICA/ICAN/ICAZ APC case study. The **Main & Catch Up APC Programmes** start here, albeit at different times – in April and July respectively.

ASSESSMENT PHASE: This phase evaluates professional competence through: (1) Baseline, (2) Final, and (3) Supplementary Assessment. **Catch Up APC Programme** includes only Final and Supplementary.
