EXPERT LEARNING WITH A PERSONAL TOUCH

COURSE OVERVIEW

The board course comprises three phases:

PHASE 0 – REVISION PHASE: Designed to build exam readiness, this phase enables repeat candidates to reflect on the IAC June 2026 examination, address key development areas, and gain deeper insight into examiner expectations. Through a targeted review of core technical resources, candidates will strengthen their technical and pervasive competencies before concluding with reflective consultation sessions.

PHASE 1 – TECHNICAL PHASE: Building on Phase 0, this phase revisits the proven success formula through the IAC June 2025 examination. Existing candidates will reinforce key lessons, while newly registered candidates will develop mastery of the approach. The phase concludes with a Baseline Examination to assess readiness and identify development priorities.

PHASE 2 – EXAMINATION TECHNIQUE PHASE: Building on the mastery achieved in previous phases, you will refine and polish your skills through a final mock examination that closely simulate the IAC experience, ensuring you enter the actual exam with confidence and readiness.
