WHAT TO EXPECT

The APC Workshop is delivered via a mix of pre-recorded and live sessions. The pre-recorded sessions primarily deal with the review and analysis of the pre-release information, and these are referred to as reflection videos, while the live sessions will focus on the information on the day – as well as selected tasks where the analysis of the IOD is on a pre-recorded basis. We will be focusing on the coverage of the December 2025 APC.

There will be several sessions delivered on a live basis delivered via Ms Teams – the sessions are also recorded. The sessions are held on Saturdays, 08h00 – 12h30 and weekdays, 18h00 – 21h00, (recordings available within 24 hours for missed sessions). To access the APC Workshop timetable, please click here for access. You will find the timetable links on the APC Workshop SharePoint site under Microsoft Class Links tab. ENDUNAMOO AFRICA 9-POINT INTEGRATED COMPETENCY FRAMEWORK

To support our candidates' learning and professional development journey, Endunamoo Africa has developed a comprehensive competency framework, the Endunamoo Integrated 9-Point Assessment Competency Framework, that ensures consistent feedback across all assessments and aligns with the SAICA CA of the Future. This framework outlines the key competencies we believe are essential for success in the APC assessment and your broader professional development. It serves as both a diagnostic and developmental tool, guiding your progress and helping you focus on the areas that matter most. Our competency-based approach aligns with the Endunamoo Africa's integrated learning philosophy, ensuring that you build both technical depth and professional acumen as you prepare for the APC 2026 assessment and beyond.

The **Endunamoo Integrated 9-Point Assessment Competency Framework** includes the following core competencies:

Mastery of the competencies outlined in this framework is key to achieving consistent success across all disciplines. Accordingly, we will use this framework to:

- Guide feedback during script review process as well as the practice question banks.

- Support self-assessment and reflection, helping you identify strengths and areas for ongoing development
